GitHub: github.com/mini5418

SKILLS

LANGUAGES: Java, Kotlin, C

FRAMEWORKS: Jetpack Compose, Basics of Flask, Familiar with Flutter

DATABASE: SQL, Room Database

Other Technologies and Developer Tools: VScode, Git, Github, Firebase, Android Studios, Retrofit

News App

Technologies: Jetpack Compose, Kotlin, NewsAPI, Retrofit.

- Developed a news app using Jetpack Compose for Android. Integrated NewsAPI to fetch and display the latest news articles.
- Designed a responsive and dynamic UI for an enhanced user experience. Adopted clean architecture principles for maintainable and scalable code.

Plant Disease Detector App

Tech Stack: Jetpack Compose, Kotlin, Firebase Authentication, Gemini API.

- **Photo-Based Detection:** Users can click a photo or upload from the gallery for disease detection.
- **Natural Language Queries:** Integrated Gemini API for disease detection and solution recommendations via natural language.
- **Secure Authentication:** Implemented Firebase Authentication for secure user login.
- **Comprehensive Solutions:** Provided both organic and inorganic solutions without requiring user selection.

EDUCATION

High School: St. George's College – 80.00

Intermediate: Shri RS Public School – 81.00

B. TECH CSE: ITS Engineering College – 7.00 CGPA(6th sem)

ADDITIONAL INFORMATION

Activities: Sloved 200+ DSA questions across leading platforms(Leet code, Code studios)

Certifications: Excellence in DSA(by Udemy), Android Development course(by Neatroots).

Achievements: 5 star in Java, 5 star in problem solving.
